

CNC VTL MACHINIST – ATCAM, LLC

Role Overview

Manufactures a wide range of new parts and components in a job shop environment using common manual and CNC machine shop equipment. Also provides part repair or replacement services as needed to support a wide variety of industrial equipment. **This is a first shift position Monday through Friday 6am till 2:30pm.** This position has the potential starting wage of up to \$32/hour, 100% paid company health insurance, vacation plan, Simple IRA with company match and uniforms.

What You Get to Do

- Safety is the top priority. Is responsible for the safety of self and all others. Maintains a clean and organized environment.
- Is responsible for the safe proper use and care of shop tools and equipment including manual and CNC lathes, mills and other equipment.
- Operation of cutting equipment such as band saws, table saws, etc.
- Performs set-ups for all types of jobs. Responsible for the design and manufacturing of jigs or fixtures when required.
- Perform basic machining operations using grinders, drill presses, broaching, etc.
- Reads and interprets drawings and is able to use basic shop inspection tools and equipment to ensure parts meet defined tolerance and quality expectations.
- Performs routine basic maintenance on shop equipment as required.
- Ensures compliance with OSHA and other regulatory agency standards, as well as safety policies established by ATCAM, LLC.
- Operation of forklifts, basic rigging and use of overhead cranes as well as other typical shop material handling equipment.

WHAT WE VALUE

- Ability to safely operate a forklift
- Basic safe rigging techniques using straps, slings, and other related hardware
- Basic computer skills
- Good mechanical aptitude and basic blueprint reading
- Familiar with the use of typical machine shop equipment, tooling and techniques
- Excellent oral and written communication skills
- High degree of initiative and self-direction
- Must be able to work effectively both independently and with others in team situations

WHAT WE WANT FROM YOU

- Two-year technical degree, or equivalent experience
- Ability to program and operate CNC VTL equipment. Prefer G-code writing and a GibbsCAM background is a plus.
- A good working knowledge of machine shop methods and procedures.
- Basic knowledge of personal computers
- Must possess basic hand tool and measuring equipment per company listing
- Reliable, dependable and respectful. Be on time
